The Escapologist

DANCE

We are not just any
escape room...

Here's why we offer
something totally
unique

- We combine escape rooms with relaxed socialising by installing our handmade bar and furniture in our venues - a perfect blend of hospitality and leisure
- We imagine, design and create all of our props & technology in-house in our own design lab
- We change our rooms frequently allowing for new concepts to be brought in and driving repeat custom
- We work with the community. Whether it's local workshops in schools teaching pupils about engineering and design or being one of the few STEM (Science, Technology, Engineering & Mathematics) recognised businesses
- We have an extremely high average room occupancy rate of up to 90% in school holidays
- We offer customers packages where they can book in to eat at neighbouring eateries after visiting us, increasing other operators' turnover

What We Want

- 1,000 - 2,500 sq ft
- **Major UK shopping / leisure centres** - we will look at difficult spaces and bring life to different shapes, sizes and situations within schemes
- **Busy high streets in affluent locations** - we can utilise a small ground floor entrance leading into larger basement/upper floor areas
- D2 use or ability to secure

Opportunities to be sent to the retained agent:
